Hosting

Once your website is completed the site must be placed on a web "Server" (a computer which is permanently connected to the Internet). This means that your site can be accessed anywhere around the world at any time. Does not require installation of any software pieces on your desktop computer. Instead, all your software applications, database and files are located on a computer in the Internet, which is maintained by your host provider for a monthly fee.

:: Service	:: Features
Hosting	<ul style="list-style-type: none"> • 99.9% Uptime • up to 5 email accounts • 24/7 Live Support • Feature Rich and Scalable • World Class Infrastructure <p style="text-align: right;">Starting at \$20/mo (\$45 set up)</p>
